

To All Undergraduate and Graduate Students,

Nagoya University will update its Certificate Issuing System and Educational Affairs System in late May, 2020.

<Certificate Issuing System>

- The IC chip of the student ID card will be used for user recognition. This will reduce the instances of problems regarding user recognition.
- After placing the student ID card over the reader, you are required to input your Nagoya University ID password.

< Educational Affairs System >

- The new system is compatible with smartphones and tablet devices.

- You will be able to access this system via the Nagoya University Portal as before.
- We will prepare a separate manual for this system.
- A system for graduate students is also planned to start.
